

**Supplementary table 2: Attitudes towards cervical cancer and willingness to screen**

Variables	Frequency (%)	Average score	Variables	Frequency (%)	Average score
Cervical Cancer is Curable if Detected Early N=408			Cervical Cancer or Pap smears is effective in detecting cervical cancer N=405		
Strongly disagree	7 (1.7)		Strongly disagree	6 (1.5)	
Disagree	23 (5.6)		Disagree	6 (1.5)	
Neither agree nor disagree	80 (19.6)	4.02/5	Neither agree nor disagree	95 (23.5)	4.0/5
Agree	142 (34.8)		Agree	175 (43.2)	
Strongly agree	156 (38.3)		Strongly agree	123 (30.4)	
Once cervical cancer occurs, It cannot be treated N=406			Every woman above 20 years should be tested for cervical cancer N=406		
Strongly disagree	17 (4.0)		Strongly disagree	7 (1.7)	
Disagree	88 (21.7)	3.04/5	Disagree	8 (2.0)	4.13/5
Neither agree nor disagree	192 (47.4)		Neither agree nor disagree	48 (11.8)	
Agree	79 (19.5)		Agree	207 (51.0)	
Strongly agree	30 (7.4)		Strongly agree	136 (33.5)	
Vaccinating Young Girls can prevent cervical cancer N=405			Traditional medicine is more effective in handling cervical cancer? N=407		
Strongly disagree	19 (4.7)		Strongly disagree	92 (22.6)	
Disagree	37 (9.1)	3.75/5	Disagree	79 (19.4)	3.36/5
Neither agree nor disagree	83 (20.5)		Neither agree nor disagree	148 (36.4)	
Agree	155 (38.3)		Agree	61 (15.0)	
Strongly agree	111 (27.4)		Strongly agree	27 (6.6)	
Cervical Cancer Can Be Caused by Charms and evil spirits? N=401			Willingness to go for screen if adequately educate N=407		
Strongly disagree	110 (27.4)	3.74/5	Not sure	86 (25.0)	
Disagree	134 (33.4)		No	134 (39.0)	
Neither agree nor disagree	100 (24.9)		Yes	124 (36.0)	
Agree	35 (8.7)				
Strongly agree	22 (5.4)
